<p>Name of associated Consultants, if any: BPI Ltd.</p>	<p>Name of senior professional staff of your firm involved and functions performed (indicate most significant profiles such as Project Director/Coordinator, Team Leader): Dušan Ogrizek, M.Sc. (Project manager, The leading design civil engineer) Samo Peter Medved (The leading design structures engineer)</p>
<p><i>Narrative description of the Project:</i> The motorway section is part of motorway A5 between Maribor and Pince that represents a motorway connection between Slovenia and Hungary and belongs to the Complex 5 of the European transport corridor. The motorway also has substantial importance in connecting North-Eastern Slovenia with the central part of the country. The course runs across demanding flat terrain. There is extensive and intensive settling in the motorway corridor, as well as a dense network of roads, railway and water supply. The project includes the making of an outline scheme, outline projects, main projects and realization projects, including all the required elaborates and other projects (viaducts, bridges, overpasses, communal equipment, water management, traffic studies, rest areas etc.). A special part of the project is the reconstruction of structures and equipment on the oil and gas field Petišovci.</p>	
<p><i>Description of actual services provided by your staff within the assignment:</i> Project management, motorway design, deviation plan and connection plan, culverts design, rest area design, realization details, etc.</p>
